### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Tracy on December 3, 2009.

The application has been amended as follows:

In claim 11, line 1, the phrase "A computer-readable medium" has been changed to --A hardware storage medium--, to place this application in condition for allowance.

2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to the apparatus and method for processing image. Each independent claims identifies the uniquely distinct features: "time resolution creation means for generating an image that has a higher time resolution than that of the image made up of the multiple pixels by using the motion vector detected by the motion vector detection means and the image made up of the multiple pixels; and motion-blurring-mitigated image generation means for generating a motion-blurring-mitigated image in which motion blurring of a moving object is mitigated by using the motion vector detected by the motion vector detection means on the assumption that a pixel value of pixel of the moving object in the image is a value obtained by integrating, in a time direction, a pixel value of each pixel in which no motion blurring that

corresponds to the moving object occur as it is moved." All the references of record, either singularly or in combination, fail to anticipate or render the underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
